

First announcement

Harmonisation and Innovation in PhD Study Programs for Plant Health in Sustainable Agriculture (HarISA)

Final conference

September 6-8, 2022, Novi Sad, Serbia

Plant Health in Sustainable Agriculture: Hot Spots and Solution Perspectives

Dear colleagues,

We cordially invite you to participate in the scientific conference, which is the final conference of the Erasmus+ project HarISA "Harmonisation and Innovation in PhD Study Programs for Plant Health in Sustainable Agriculture" and will be held at the University of Novi Sad, Faculty of Agriculture, in Novi Sad from 6 to 8 September 2022.

The title of the conference is *Plant Health in Sustainable Agriculture: Hot Spots and Solution Perspectives* and the main topics will deal with diagnosis in plant health and IPM, sustainable use of pesticides, plant feeders, plant pathology, weed science, mycotoxins and food safety, bio-diversity and bio-indicators in sustainable agriculture, precision agriculture in the control of plant pests, pathogens and weeds.

In addition, the HarISA project results including the newly developed curriculum of the Joint PhD study programme will be presented at this conference.

The conference programme and book of abstracts will be published on the website.

The meeting will be organised in person and online. Please, confirm your participation in time by registration at the following link: <https://forms.gle/R5xbmN8LzTLBNZPM9>

All professors who would like to give a presentation on the main topics are invited to submit their abstracts at the following link: <https://forms.gle/c6bTV1FUuu1ZVfNL9>

The deadline for registration and submission of papers is **30 June 2022**.

Further information regarding the program, arrival and accomodation will be provided soon in the Second Announcement.

We look forward to seeing you in Novi Sad, the Capital of Culture 2022!

On behalf of the Organizing Committee,

Prof. Aleksandra Konjević, PhD, President of the Organizing Committee
